

NO FENCE NO WORRIES

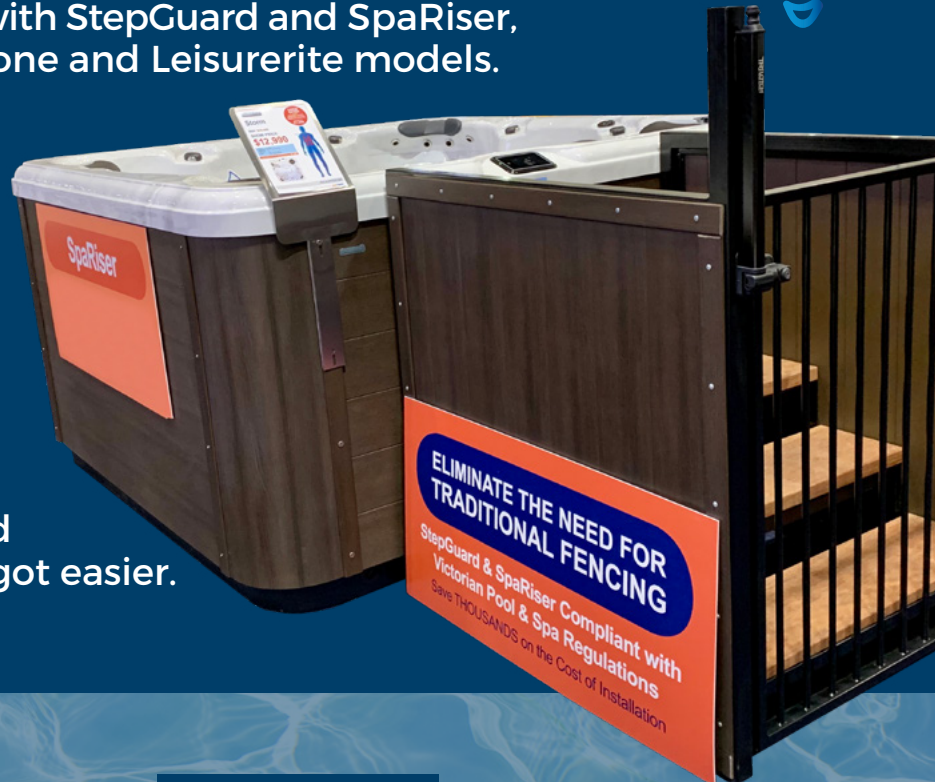

Introducing SpaRiser & StepGuard

Reduce your installation cost with StepGuard and SpaRiser, available on all our 2020 Cyclone and Leisurerite models.

By increasing the height of your Spa or Swim Spa with a SpaRiser and combining it with StepGuard, our custom step and gate combination, you can avoid the cost of installing a pool fence.

Compliant with Building Regulations owning a spa and keeping your family safe just got easier.

SpaRiser

Our Cyclone and Leisurerite T Model spas come equipped with an in build SpaRiser, boosting your spa to 1240mm, which allows it to easily be matched with StepGuard. Manufactured in conjunction with our TuffBase™ and TuffFrame™ systems, the SpaRiser sits seamlessly below your spa raising its height to meet Building Regulations.

StepGuard

Eliminate the need for traditional fencing with the dynamic new StepGuard. Getting in and out of your Spa or Swim Spa is now a breeze with StepGuard. The combined steps and gate system allows safe and easy access to your Spa or Swim Spa. Compliant with Building Regulations, StepGuard is the perfect solution to reduce fencing costs and installation time.

Save **THOUSANDS** on the Cost of Installation
